3. Copy the Meeting Link: You can share this link with participants via email, chat, or any other communication method.

Scheduling a Meeting

1. Open Google Calendar: Go to Google Calendar and create a new event.
2. Add Guests: Enter the names or email addresses of the people you want to invite.
3. Add Google Meet Link: In the event details, add a Google Meet link.
4. Send Invites: Save the event and send invites to your guests.

Joining a Meeting

1. Open the Meeting Link: Click on the meeting link sent to you.
2. Allow Permissions: Grant permissions for your microphone and camera if prompted.
3. Join the Call: Click "Join now" to enter the meeting.

2. Create a Simple HTML page by using some of the basic tags. (hyperlink, marquee, images).

Hyperlink: To create a hyperlink, you use the <a> (anchor) element.

Syntax: Click here to visit Example.com

Marquee: The <marquee> element creates scrolling text.

Syntax: <marquee behavior="scroll" direction="left">This is scrolling text</marquee>

Images: To display an image, you use the element.

Syntax:

```

<html>

<head>

    <title> The National College jayanagar Page</title>

</head>

<body style="background-color: burlywood;">

    <h1 style="color: brown;">Welcome to The National College Jayanagar Home Page!</h1>

    <!-- Marquee Tag -->

    <marquee behavior="scroll" direction="left" style="color: crimson;">THE NATIONAL
COLLEGE JAYANAGAR</marquee>

    <!-- Hyperlink Tag -->

    <p>Click <a href="https://ncjayanagar.com/">here</a> to vist National College Jayanagar
website</p>

    <!-- Image Tag -->

    <h2>Here's an National College logo:</h2>

    

    <p>Thank you for visiting!</p>

</body>

</html>

```

Output:
